**I acknowledge a reconnection fee of \$50.00 will be charged for non-payment of my water/sewer bill plus the past due amount before re-establishing service.**

### Service Agreement

Purpose: The utility is responsible for protecting the drinking water supply from contamination or pollution which could result from improper plumbing practices. The purpose of this service agreement is to notify each customer of the plumbing restrictions, which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the utility will begin service. In addition, when service to an existing connection has been suspended or terminated for non-payment, customer must pay past due amount in full plus a \$50.00 reconnection fee; otherwise the utility will not re-establish service unless it has a signed copy of the agreement.

The utility agrees to sell and deliver water to the customer and the customer agrees to purchase and receive water from the utility in accordance with the rules and regulations of the utility as included in its approved tariff in file with the utility and the Texas Natural Resource Conservation Commission.

All water will be measured by meters, which are furnished, installed, owned and maintained by the utility. The meter and or connections are for the sole use of the customer to serve water to one dwelling, business or property. The customer shall not share, resell or submeter water to any other dwelling, business, property, etc. without the specific written authorization of the utility and in compliance with applicable laws and regulations. The utility has the right to locate water service meter and pipe necessary to connect the meter on the property of the customer at a point mutually agreeable by both the utility and the customer. The customer will allow the utility access at all times to its water service meter.
