Commercial Building Requirements

This document is not meant to modify any Federal or State laws or City Ordinances. It is intended to be informative and to be used as a guideline. Where circumstances of a particular job differ from these procedures, the decision of the Building Department will prevail.

Building Codes

The City of Beasley has adopted the following codes regulating building construction.

<i>2015 International Building Code</i>	<i>2015 International Residential Code</i>
<i>2015 International Plumbing Code</i>	<i>2015 International Mechanical Code</i>
<i>2014 National Electrical Code</i>	<i>2015 International Fire Code</i>
<i>2015 International Fuel Gas Code</i>	<i>2015 International Energy Conservation Code</i>

Building Permit

Before a building permit will be approved, all plans and documents related to the permit application must be approved by the Building Department and Floodplain Administrator. Approved permits must be picked up at the City Hall prior to work beginning and retained on site during construction. Permit becomes void if construction does not commence within six (6) months from date of application.

A permit fee must be paid upon submission of the building permit application for all new residential construction. All permit fees are non-refundable.

All Contactors performing work within the City of Beasley's jurisdiction must be registered with the City and provide proof of liability insurance.

Permit packet that includes the approved plans and documents and all inspection tickets must be on site at the time of inspection.

The building final inspection must be passed and Certificate of Occupancy issued prior to occupancy of building.

Construction Site

A temporary property address must be posted at the front of the lot and readable from the street. Permanent street numbers must be displayed before final inspection.

A portable sanitary restroom for your workers MUST be on your property until the final inspections are approved.

A trash receptacle constructed to prevent construction trash from blowing or scattering from the jobsite/property shall be maintained until job completion. NO construction material, debris, or sanitary restroom facility shall be placed or stored in the public right-of-way or drainage areas at any time.

Erosion control must be in place prior to the first inspection.

A permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced. All permits require final inspection.

It shall be unlawful to use or occupy or permit the use or occupancy of any building or premises created, erected, changed, converted or altered or enlarged in its use or structure until a Certificate of Occupancy shall have been issued by the administrative official.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
